PERFECT INDULGENCE VEGAN

How Can This Be Vegan? Graeter's has partnered with Perfect Day to utilize their animal-free dairy proteins in Perfect Indulgence. Rather than the traditional dairy from cows or other animals, these proteins come from a process utilizing micro-flora fermentation. It's still dairy, it's just animal-free. While Perfect Indulgence is vegan and lactose-free, the animal-free dairy proteins that are produced still contain certain "milk allergens" and those with sensitivity to other dairy should read the ingredient panel closely.
